EXPERIENCE

NodeFlair | Software Engineer Intern, Singapore

May 2023 – Present

- Developing an AI-powered resume builder with personalized recommendations, real-time feedbacks, and PDF export capabilities
- Engineered newsletter feature that recommends weekly job opportunities and other data based on users' job search status and preferences, now utilized by over 1000 users
- Revamped frontend features which reduced bounce rate by 10% and exit rate by 20%

CVWO | Software Engineer Intern, Singapore

May 2022 – Aug 2022

- Led a team of 3 to design and implement 2-factor authentication (SingPass, Email, TOTP) for an elderly management system, currently being deployed for 2,500 staff and over 20,000 seniors
- Spearheaded migration of Ruby on Rails from 5.2 to 6.1 and Ruby from 2.5 to 3.0, refactoring the codebase to remove unsupported dependencies, ensuring long-term sustainability

CO-CURRICULAR EXPERIENCE

Source Academy | Software Engineer, Singapore

Jan 2023 – Aug 2023

- Designed and developed a notification system while ensuring extendibility across various notification mediums, now utilised weekly by over 1,000 students every semester globally
- Revamped background job processing for fault-tolerant execution, job tracking, and monitoring

Google Developer Student Clubs | Software Engineer, Singapore

Aug 2022 – Aug 2023

- Developed administrative and student learning journey page to enhance teacher efficiency and elevate quality of student education
